

REA Industrial Steam Cleaning Tools

HANDLE / HOSE WITH PROGRAM CONTROL

- Heavy duty steam hose or Heavy duty light weight hose
- Handle / hose with integrated program selector switch
- Cleaning tools and brushes are attached to the handle / hose.
- The standard handle / hose is included with the purchase of the steam cleaning equipment and can also be purchased separately.
- Programs can only be selected when pressing the red button on the underside of the handle (all models except Compact 3000 VAC).

Standard Handle / Hose

Light Weight Handle / Hose

Type of Handle / Hose and Part Number

Model	Standard Length	Max. Length	Function	Part No.
Compact 3000 VAC	4 mts	4 mts	Analogue	4mt hose
Compact 9	4 mts	10 mts	Analogue	7202/...
Super	4 mts	10 mts	Digital	4202/...
S18E	6 mts	12 mts	Analogue	7202/...
Special 2	6 mts	12 mts	Digital	4202/...
Maxi	8 mts	12 mts	Digital	5202/...

Digital Steam Functions

0. steam generator on hold
1. steam only
2. steam and detergent
3. steam and water
4. steam, detergent and vacuum
5. steam and vacuum
6. vacuum

Analogue Steam Functions

0. steam generator on hold
1. steam only
2. steam and detergent

STANDARD SET OF TOOLS for steam equipment **with and without** vacuum attachment
 All tools are sold separately to suit your cleaning application. For all models except REA Compact 3000 VAC.
Part numbers in italics denotes standard widths.

LONG LANCE

Suitable for universal application for cleaning areas that are difficult to reach. The nozzle is fan shaped for quicker sanitising action and positioned as close as possible to areas for cleaning in order to achieve optimum steam sanitising results.

Part No: *202/VD/EP – 78cms in length*

BRUSH HOLDER

A variety of special brushes can be attached quickly onto the brush holder to assist removal of large deposits of debris. Brushes with nylon or stainless steel bristles are available according to surface being cleaned and sanitised (see Industrial Brushes).

Part No: *203/VD*

WIPER WITH RUBBER SQUEEGEE (204/VD)

Cleaning and sanitising surfaces while gently using the rubber squeegee.

Part No: 204/VD 25cms in width
205/VD 35cms in width
206/VD 45cms in width

SHORT LANCE (207/VD)

The short lance has a wide range of uses for cleaning smaller surfaces and objects with angular shapes. The lance is easy to handle and achieves perfect cleaning results.

Part No: 207/VD 10cms in width

Tools for Steam Equipment with integrated vacuum attachment

All tools are sold separately to suit your cleaning application. For Models **Super, Special 2 and Maxi.**

SUCTION BRUSH

The suction brush is fitted with nylon bristles. In combination with steam, this achieves a very effective mechanical scrubbing effect without scratching surfaces. The special silicon sheath around the brush makes it possible to achieve the appropriate pressure for vacuuming wastewater and debris for disposal. A necessary function for sanitising surfaces.

Part No: 210/7/VDA 7cms in width for sanitising narrow conveyor belts
210/VDA 25cms in width
211/VDA 33cms in width

FLOOR WASHING, SCRUBBING AND DRYING BRUSH (212/VDA)

Fitted with a nylon or steel brush to achieve a good mechanical scrubbing effect. Suitable for cleaning all types of washable floors: Wash – clean – sanitise and dry. Wastewater is vacuumed for disposal.

Part No: 212/VDA/25 25cms in width
212/VDA 35cms in width
213/VDA 70cms in width

Tools for REA Compact 3000 VAC included with purchase

Dual control handle with hose	Muffler
Extension tubes	Spare O-ring kit
Textile tool	Descaling kit
Multipurpose brush	Frame with rubber strips
Frame for carpets	Window brush
Bristled fame for floors	Sprayer
Half crevices for nozzles	Nozzle
Crevices for curved nozzle	Curved end for nozzle
Brush with soft, stiff round inserts and triangle inserts	Vacuum (not shown)

INTEGRATED VACUUM ATTACHMENTS

The vacuum equipment is fitted with a connector to integrate with the functions of the **REA 9kW Super** and the **REA 18kW Special 2** steam cleaning equipment for the extractor of wet and dry waste. Operated from the handle / hose for ease of use and housed on top of the body of the equipment.

Motor: Single phase 1200 W by-pass cooling

Suction power: 1800 mm WS

Suction volume: 140 m³ / h air

Capacity: 38 litres

Voltage: 220 V

Other single phase and 3-phase Vacuum Attachments

A variety of 15A and 3-phase vacuums are available for casual and continuous vacuuming. Tank capacity ranges from 60 to 120 litres. Automatic tank discharge is available on some vacuums.

INDUSTRIAL BRUSHES

Securely attached bristles onto metal plates make the industrial brushes very robust for most industrial cleaning applications. The brushes are quickly attached onto the handle / hose. With the assistance of steam, the abrasive action of the brushes makes quick work of removing debris from a variety of surfaces.

Nylon bristled brushes are available for industries where stainless steel brushes are not permitted, such as the Food Manufacturing industry or a gentler abrasive action is required. Stainless steel brushes are recommended where more abrasive cleaning is required.

Round Ø 35 mm brushes

Part No: 458 stainless steel bristles

Part No: 459 nylon bristles

Rectangle 6 cms x 8 cms brushes

Part No: 3043 nylon bristles

Part No: 3044 stainless bristles
